PROJECT EXPERIENCE

Meal Planning App — Curatable Online Cookbook

- Designed a React frontend that connected to a persistent database.
- Implemented authentication and verification for users.
- Worked as a team to deliver a functional MVP app.

WORK EXPERIENCE

Studio Manager — Shock City Studios, Saint Louis, MO

May 2015 - Present

- Led a growing team of audio engineers through daily challenges of customer service, accounting, scheduling, and problem solving.
- Promoted growth in revenue year-over-year by exploring new technologies, utilizing interactive management styles, and maintaining software and hardware needs.
- Invoked lateral thinking and problem solving skills to ensure delivery of materials under time constraints.
- Successfully integrated with various technical vendors to grow skills and knowledge base well beyond expectation.
- Performed community outreach to promote interest in the recording industry and give back to those unable to continue education through traditional channels.
